About

I'm a passionate and detail oriented react developer based in Liverpool, UK. I enjoy design and making clean code. I enjoy continuous learning and exploring the latest technologies.

Experience

Freelance Web Developer

Jan 2020 – Dec 2020

Making websites for clients on Discord

part-time

- Making websites for clients mainly in HTML5, CSS3, JavaScript. I stopped taking clients due to wanting to study more and working on personal projects.
-

Projects

CSSBUTTONS | *React, JavaScript, HTML5, CSS3, Vercel*

2020

- cssbuttons is a buttons collection built in React. It's main purpose was to give a collection of pure HTML5 and CSS3 buttons to web developers with ease. Since this projects launch it has gotten over 10000 visitors.

nine4 | *React, Next.js, JavaScript, HTML5, CSS3, Tailwind CSS, Vercel*

2020 - 2021

- nine4 is a template collection build in Next.js where developers/businesses can download free website templates built with Next.js and styled using Tailwind CSS.

jacklatimer.dev | *React, Next.js, JavaScript, HTML5, CSS3, Tailwind CSS, Vercel*

2020 - 2021

- jacklatimer.dev is my own personal portfolio website built in Next.js and styled using Tailwind CSS.
-
